Northrop Grumman's [AQS-24B Minehunting System](#) is the only deployed and operationally proven, high-speed, airborne and surface towed mine hunting system in the world. The AQS-24B provides a state-of-the-art high resolution, High Speed Synthetic Aperture Sonar for real time detection, localization and classification of under-sea mines, and a Laser Line Scan sensor for same sortie, high speed mine identification.

Northrop Grumman is a leading global security company providing innovative systems, products and solutions in autonomous systems, cyber, C4ISR, space, strike, and logistics and mod-

ernisation to customers worldwide. In Europe, we are among the leading defence and security suppliers with 2,500 employees and long-established businesses in the UK, France, Germany, Italy, Netherlands, and Poland. For more information about Northrop Grumman in Europe, visit us [here](#).
